

Vorwort:

Ho ho ho, we wish you all a very happy holiday season! ☐☐☐☐

Thank you for downloading my mod pack for the Citybus O530 / O530 Facelift in OMSI 2. This download includes a small mod that adds rain strips above the windows of the vehicles. As far as I know, almost every vehicle has these rain strips, which is why I created this mod and would like to share it with you..

Installation:

- The following are required: [Citybus 530 Facelift Add-on](#) und Citybus 530 Add-On
- Add the enclosed file to the following path: **...\common** ein

First up is the version for the Citybus O530:

- We go to the following folder:

...\common\OMSI2\Vehicles\Citybus 530 by Kajosoft

There, we go to the Model folder and open the **model_o530_e3_2.cfg**
(anywhere you want to install them) this is just an example!!!

Now we are looking for the following entry:

(This entry depends on the variant; for the joint, it would be **C1_G\body_g1_e3_3.o3d**)

```
[mesh]
C1\body_s_e3_2.o3d

[illumination_interior]
-1
-1
-1
-1
-1

[matl]
body_s_e3_2.tga
0

[matl_envmap]
envmap.dds
0.1

[matl_bumpmap]
SD80_bump.bmp
0.1

-----

[matl]
brud_s_e3_2.dds
0

[alphascale]
Dirt_Norm

[matl_alpha]
2

[matl_noZwrite]
-----

[matl]
lift_sticker.dds
0

[matl_alpha]
2

[matl_noZwrite]
```

below which we insert the following:

[mesh]

DennysFahrzeughalle\Regenleisten\EINTRAGEN ERGÄNZEN.o3d

[illumination_interior]

-1

-1

-1

-1

[matl]

regenleisten.dds

0

[matl_envmap]

envmap.dds

0.1

[matl_bumpmap]

SD80_bump.bmp

0.1

Now all that's left is the **EINTRAGEN ERGÄNZEN** be replaced with the correct variants for your bus; you can choose from the following options at Citybus 530:

- C1_e2_regenleiste_12m (betrifft alle Varianten vom S und U Euro 2)
- C1_e2_regenleiste_15m (betrifft alle Varianten vom L und LU Euro 2)
- C1_e2_regenleiste_18m_main (betrifft alle Varianten vom G und GU 1 Euro 2 und Euro 3)
- C1_e2_regenleiste_18m_trail (betrifft alle Varianten vom G und GU 2 Euro 2)
- C1_e3_regenleiste_12m (betrifft alle Varianten vom S und U Euro 3)
- C1_e3_regenleiste_13m (betrifft alle Varianten vom MU Euro 3)
- C1_e3_regenleiste_15m (betrifft alle Varianten vom L und LU Euro 3)
- C1_e3_regenleiste_18m_trail (betrifft alle Varianten vom G und GU 2 Euro 3)

Now follows the variant for the O530 Facelift:

- We go to the following folder:

...\common\OMSI2\Vehicles\Citybus 530 by Kajosoft

There, we go to the Model folder and open the model_o530_e3_2.cfg
(anywhere you want to install them) this is just an example!!!

Now we are looking for the following entry:

(This entry is also dependent on the variant)

```

[mesh]
C1\body_s_e3_2.o3d

[illumination_interior]
-1
-1
-1
-1

[matl]
body_s_fl_2.tga
0

[matl_envmap]
envmap.dds
0.04

[matl_bumpmap]
SD80_bump.bmp
0.1

-----

[matl]
brud_s_fl_2.dds
0

[alphascale]
Dirt_Norm

[matl_alpha]
2

[matl_noZwrite]

-----

[matl]
lift_sticker.dds
0

[matl_alpha]
2

[matl_noZwrite]

```

below which we insert the following:

```

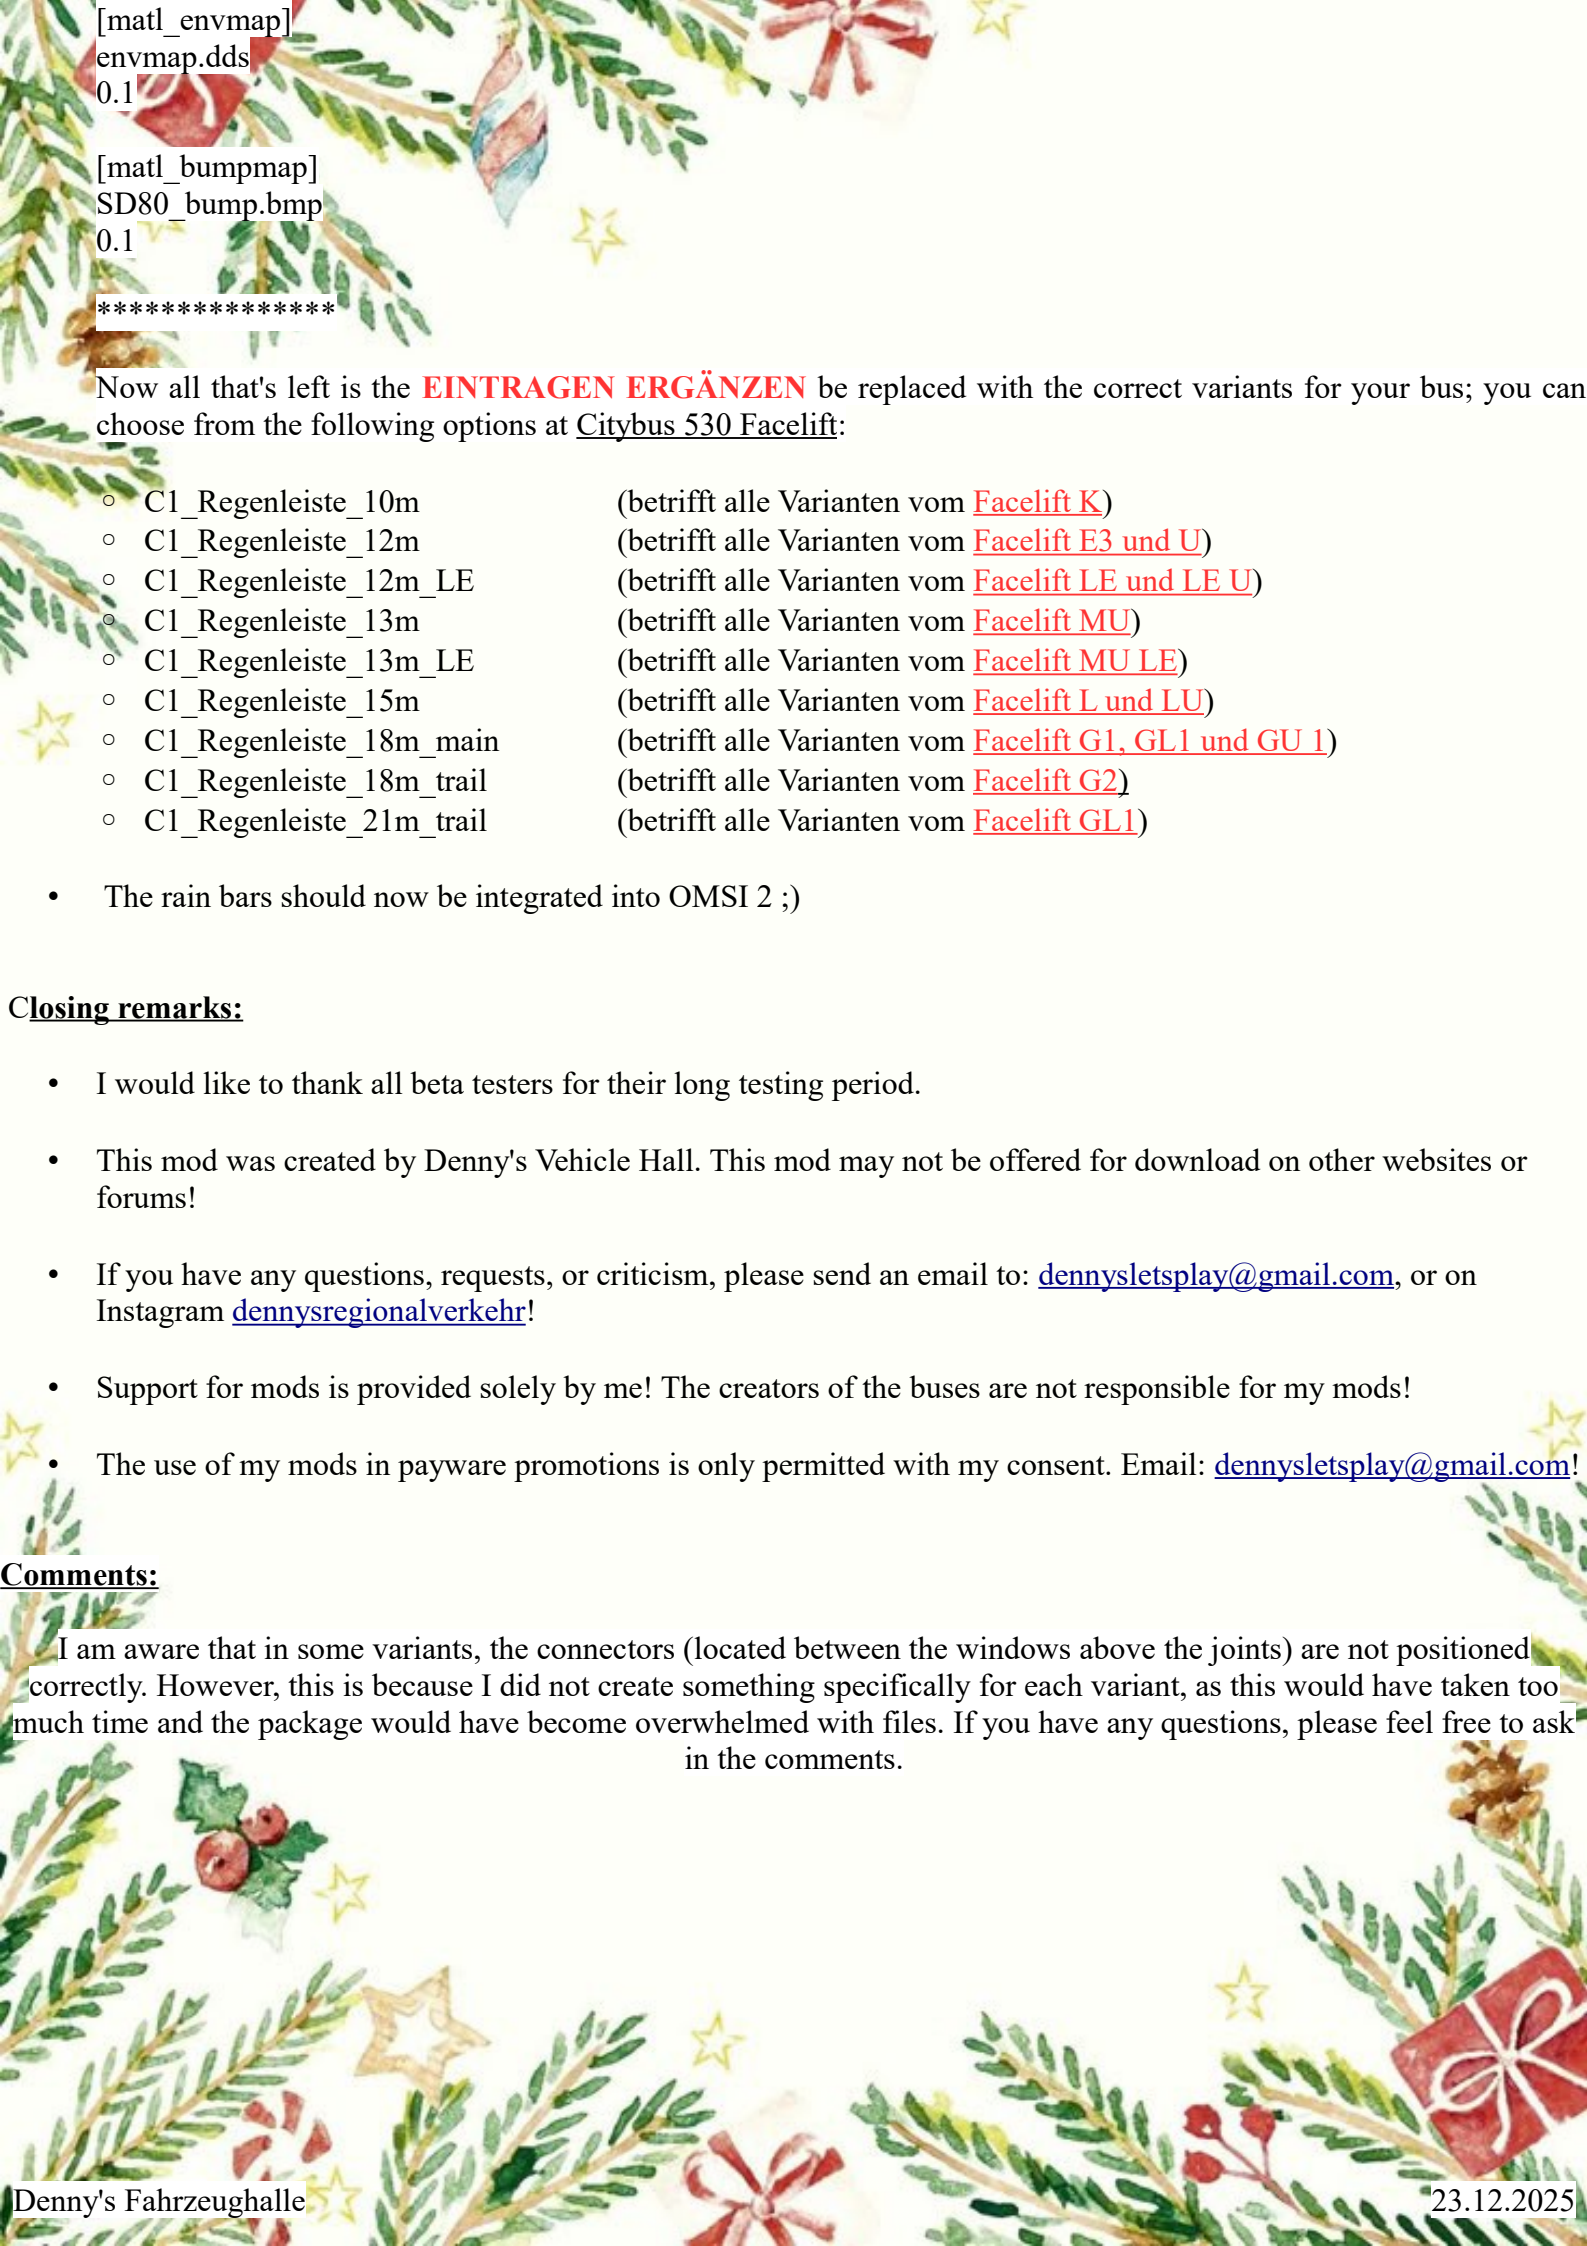

[mesh]
DennysFahrzeughalle\Regenleisten\EINTRAGEN ERGÄNZEN.o3d

[illumination_interior]
-1
-1
-1
-1

[matl]
regenleisten.dds
0

```

```
[matl_envmap]
envmap.dds
0.1

[matl_bumpmap]
SD80_bump.bmp
0.1

*****
```

Now all that's left is the **EINTRAGEN ERGÄNZEN** be replaced with the correct variants for your bus; you can choose from the following options at Citybus 530 Facelift:

- C1_Regenleiste_10m (betrifft alle Varianten vom Facelift K)
 - C1_Regenleiste_12m (betrifft alle Varianten vom Facelift E3 und U)
 - C1_Regenleiste_12m_LE (betrifft alle Varianten vom Facelift LE und LE U)
 - C1_Regenleiste_13m (betrifft alle Varianten vom Facelift MU)
 - C1_Regenleiste_13m_LE (betrifft alle Varianten vom Facelift MU LE)
 - C1_Regenleiste_15m (betrifft alle Varianten vom Facelift L und LU)
 - C1_Regenleiste_18m_main (betrifft alle Varianten vom Facelift G1, GL1 und GU 1)
 - C1_Regenleiste_18m_trail (betrifft alle Varianten vom Facelift G2)
 - C1_Regenleiste_21m_trail (betrifft alle Varianten vom Facelift GL1)
- The rain bars should now be integrated into OMSI 2 ;)

Closing remarks:

- I would like to thank all beta testers for their long testing period.
- This mod was created by Denny's Vehicle Hall. This mod may not be offered for download on other websites or forums!
- If you have any questions, requests, or criticism, please send an email to: dennysletsplay@gmail.com, or on Instagram [dennysregionalverkehr](#)!
- Support for mods is provided solely by me! The creators of the buses are not responsible for my mods!
- The use of my mods in payware promotions is only permitted with my consent. Email: dennysletsplay@gmail.com!

Comments:

I am aware that in some variants, the connectors (located between the windows above the joints) are not positioned correctly. However, this is because I did not create something specifically for each variant, as this would have taken too much time and the package would have become overwhelmed with files. If you have any questions, please feel free to ask in the comments.
