Introduction

This repaint was conceived to make tribute to the classic buses of the **Empresa de Viação Barranquense**, the main operator in Barrancos and Moura, two of the main cities of the interior of Ribatejo, and complemented operations of Rodoviária do Alentejo in the surrounding areas. The repaint has the classical beige livery present in their older **UTIC-AEC** and **DAF** units that were common between the 1990s and 2000s, but here is applied to the classic **Mercedes-Benz O307 v2** of **Perotinus**.

For the first time, the **PDNs and associated BMP files used for this repaint will be liberated** in order to make modifications easier.

How to install this repaint pack

To install this repaint, please extract the content on the ZIP folder.
Subsequently, put the content on the correct OMSI 2 directory, which is:
