Quick Overview:

Thank you for downloading this mod, which contains 5 paint jobs for the IVECO Crossway POP/LINE/HI-VALUE 13 CNG as well as for the IRISBUS CROSSWAY 13m. These repaints come from the company RRTL (formerly RDTL) based in Mont de Marsan in the Landes (40). They were used to provide regular line services and sometimes school transport.

By downloading this content, you cannot hold the author responsible under any circumstances, even in the event of a problem and/or damage to your equipment. You are solely responsible for installing this content at your own risk.

All the content used for these paintings was found on the Internet and is therefore available to everyone. You are therefore allowed to use it.

Thank you for your understanding.
