Introduction & content

This repaint for LnD's Setra S 319 UL-GT makes tribute to the real-life Setra buses operated by Rodoviária do Tejo, including all the variants which the company has purchased [all of these buses, from the S 315 UL-GT, to the S 319 GT-HD, were purchased secondhandly].

These buses still operate in their original colours, even though under other sub-brands of Rodoviária do Tejo, like Rodoviária do Oeste.

How to install the repaint

To install this repaint, please extract the content on the ZIP folder.
Subsequently, put the content on the correct OMSI 2 directory, which is:

This repaint can be used with either the manual transmission bus, or the ZF automatic transmission one if you already have modded the bus to use Morphi's S 319 UL ZF Ecomat mod.
