Introduction & content

This fictional repaint for Perotinus's Mercedes-Benz O 303-15 KHP-L makes tribute to the buses used by Rodoviária de Entre Douro e Minho [then Transdev-REDM]. They were primarily used for interurban lines, including from Porto and Braga, where the bus terminals of the company were located.

These buses, MAN buses bodied by Salvador Caetano, were still in use as of 2010. It is unknown if they're still in use.

How to install the repaint

To install this repaint, please extract the content on the ZIP folder.

Subsequently, put the content on the correct OMSI 2 directory, which is:

OMSI 2/Vehicles/MB_O303/Texture/Repaints

This repaint in question is a single front door version, and works for both the automatic and manual transmissions existing on the bus.

Copyright information & final notes

As with all of my repaints, they are distributed under the Creative Commons Attribution 4.0 License [CC-BY-NC-SA 4.0]. You can redistribute this repaint freely, you can also modify it, or even build upon it, but don't forget to mention me [O530 Carris PT] as the original creator of this content, and indicate whatever modifications you made. However, distribution for commercial purposes **is not allowed for any reason**.

This repaint can still be subject to minor or major updates if it is justified or necessary.
