Introduction & content

This repaint for MX200's VDL Citea LLE is a what-if concept of what could be Carris's version of the VDL Citea LLE, although without the themed stripe on the sides. This repaint is also a tribute for the Mercedes-Benz OC500LE purchased by Carris from 2005 to 2006.

This repaint includes also custom seat textures, based on Carris's refurbished Mercedes-Benz OC500LE. Textures were provided by OmsiVimeca.

How to install the repaint

To install this repaint, please extract the content on the ZIP folder.

Subsequently, put the content on the correct OMSI 2 directory, which is:

OMSI 2/Vehicles/VDL Citea LLE Release /Texture/REP/LLE BVG

This is the first repaint I provided for this bus, knowing that there'll be more in the future.

Copyright information & final notes

As with all of my repaints, they are distributed under the Creative Commons Attribution 4.0 [License](#) [CC-BY-NC-SA 4.0]. You can redistribute this repaint freely, you can also modify it, or even build upon it, but don't forget to mention me [O530 Carris PT] as the original creator of this content, and indicate whatever modifications you made.

However, distribution for commercial purposes **is not allowed for any reason.**

This repaint can still be subject to minor or major updates if it is justified or necessary.
