

Mercedes-Benz – Citaro - Großraumrettungswagen

Introduction

Thank you for downloading the Großraumrettungswagen mod for the Mercedes-Benz Citaro!

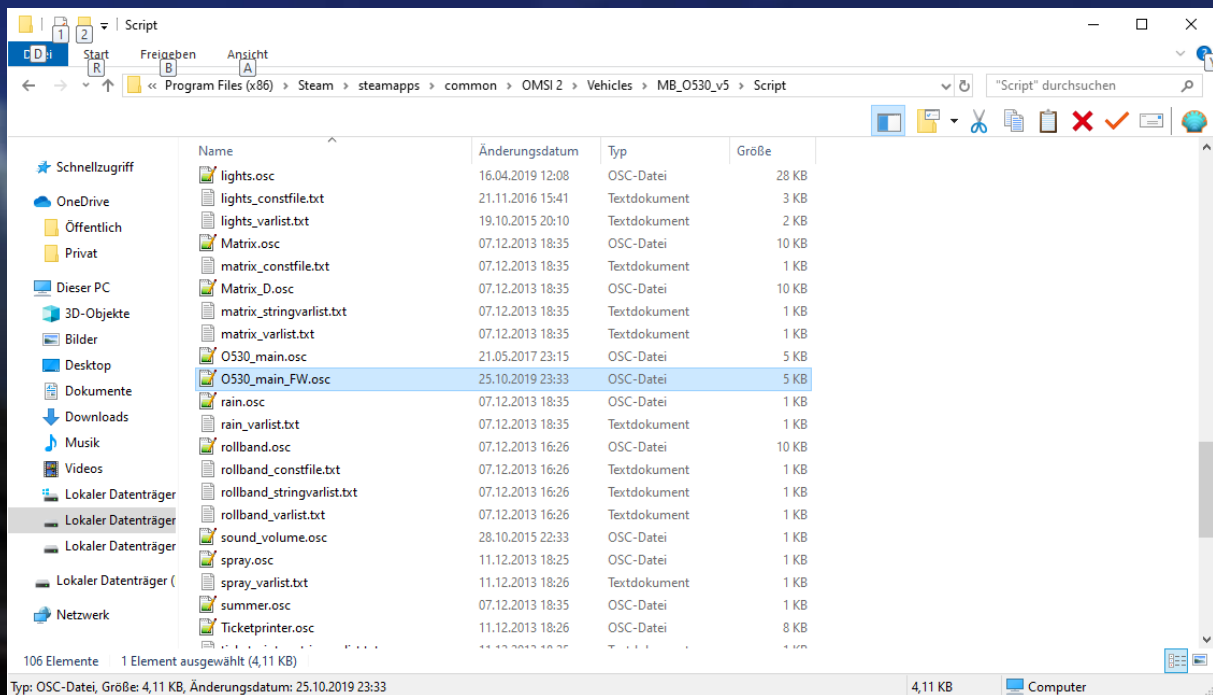

Notes

Important: Always save the file you want to edit first, so that you can restore the original one in case of errors.

This mod is based on the [Citaro Euro 2/3 ModPack v5.1](#). You can put this in other versions, but the control panel on the dashboard might be in a strange position.

Installation

1. **Copy** the content inside the OMSI 2 folder into the OMSI2 main directory.
(normally: "C:\Program Files (x86)\Steam\steamapps\common\OMSI 2")
2. **Copy** the "**O530_main.osc**" and **rename** it to "**O530_main_FW.osc**". (normally: "C:\Program Files (x86)\Steam\steamapps\common\OMSI 2\Vehicles\MB_O530_v5\Script")

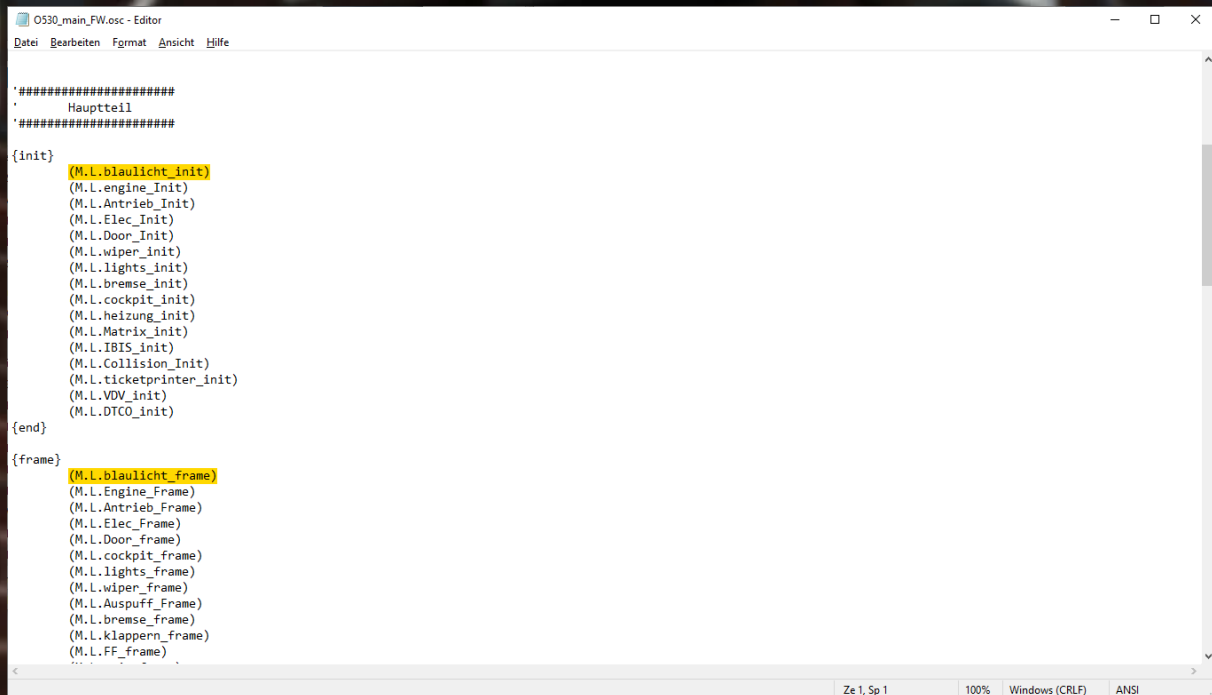

3. **Open** the file and **add** this under **{init}**

```
(M.L.blaulicht_init)
```

and this under **{frame}**

```
(M.L.blaulicht_frame)
```

```

4. Navigate to the Sound-Citaro folder. **Copy** and **rename** the "**sound_zf.cfg**" to "**sound_zf_FW.cfg**". **Add** the entries inside the "**Einträge_sound_cfg_312D.txt**" file which is located in this archive's "**Einträge**" folder **to the beginning** of the copied file. You have to do the same with the file "**sound_euro3_ZF.cfg**". **Make sure** to **rename** it to "**sound_euro3_ZF_FW.cfg**".

5. Go to the main directory of the bus and **copy** the files "**MB_O530 Euro3 ZF.bus**" and "**MB_O530 ZF.bus**" and **rename** them to "**MB_O530 Euro3 ZF_FW.bus**" and "**MB_O530 ZF_FW.bus**".

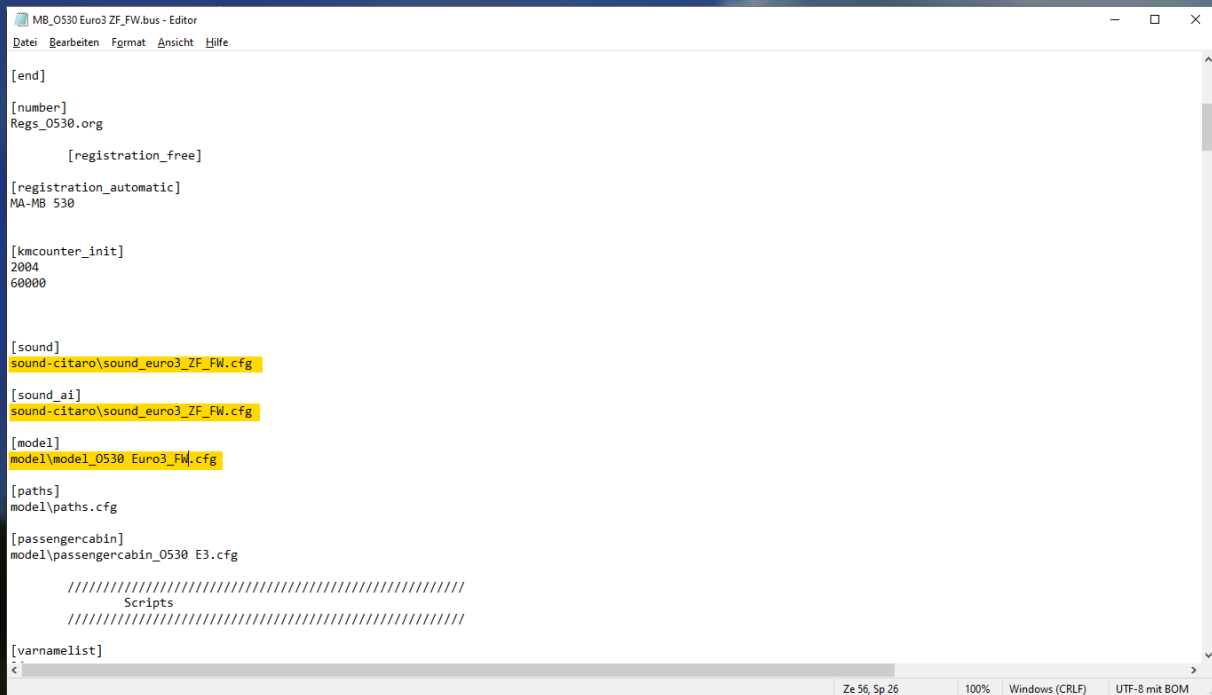

6. Open the "**MB_O530 Euro3 ZF_FW.bus**" and proceed as following:

- a. **Change** the name below [friendlyname] from "**12M|2D|OM457|ZF**" to "**12M|2D|OM457|ZF|GRTW**".

- b. **Change** the paths below **[sound]** and **[sound_ai]** to "**sound-citaro\sound_euro3_ZF_FW.cfg**".
- c. **Change** the path below **[model]** to "**model\model_O530 Euro3_FW.cfg**".

```

7. Open the "MB_O530 ZF_FW.bus" and repeat the same process as in step 6. Make sure to change the name to "v5|O530|2D-M|457|E2|ZF|GRTW" and the paths to "sound-citaro\sound_zf_FW.cfg" and "model\model_O530 Euro2_FW.cfg".
8. Open the Model folder and copy the files "model_O530 Euro3.cfg" and "model_O530 Euro2.cfg" and rename them to "model_O530 Euro3_FW.cfg" und "model_O530 Euro2_FW.cfg".

9. Open the "model_O530 Euro3_FW.cfg" and replace

```
[CTC]
Colorscheme
Texture\rep\Euro 3
0
```

with

```
[CTC]
Colorscheme
Texture\rep_FW\Euro 3
0
```

10. At the end of the file add the entries which can be found inside the
"Einträge_model_cfg_citaro.txt" in the "Einträge" folder of this archive.

11. Open the "model_O530 Euro2_FW.cfg" and replace

```
[CTC]
Colorscheme
Texture\rep
0
```

with

```
[CTC]
Colorscheme
Texture\rep_FW
0
```

12. At the end of the file add the entries which can be found inside the
"Einträge_model_cfg_citaro.txt" in the "Einträge" folder of this archive.

Now you are done and it should work. Have fun!

Controls

You can control the lights and horns either with the **controller on the dashboard** or with **keyboard mappings**.

- (1) toggles "Blaulicht"
- (2) toggles "Stadt-" and "Landhorn"
- (3) toggles compressed air horn
