

Mercedes-Benz – Citaro Facelift - Großraumrettungswagen

Introduction

Thank you for downloading the Großraumrettungswagen mod for the Mercedes-Benz Citaro!

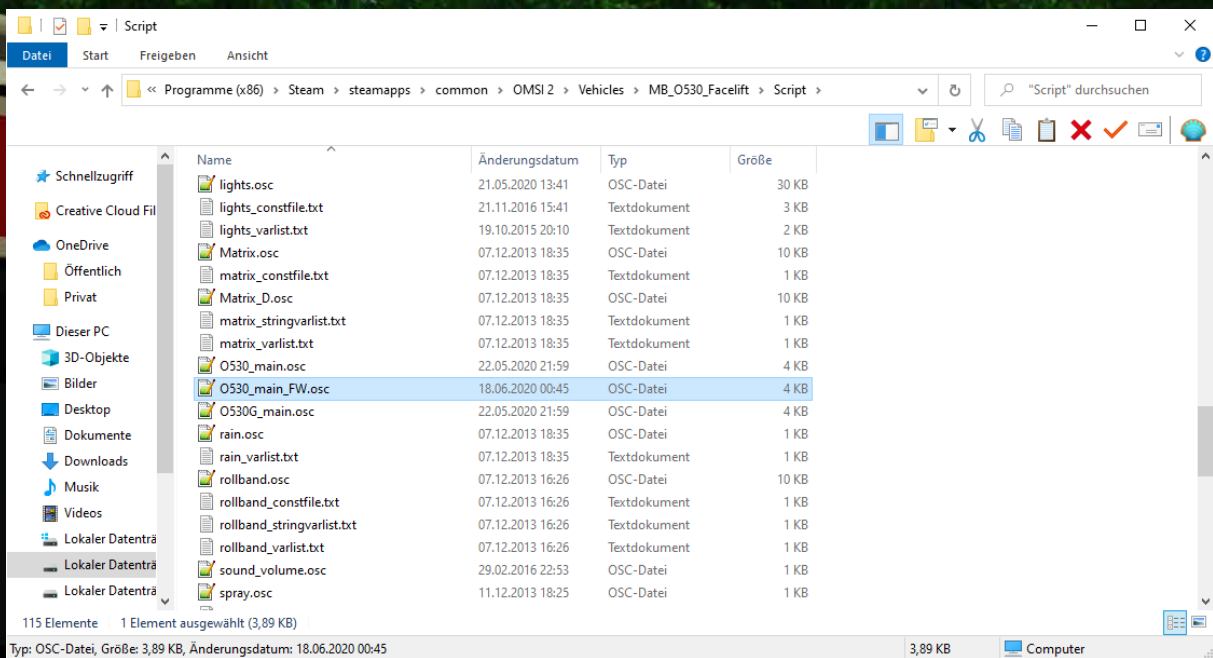

Notes

Important: Always save the file you want to edit first, so that you can restore the original one in case of errors.

This mod is based on the [Citaro Facelift Modpackage v2](#). You can put this in other versions, but the control panel on the dashboard might be in a strange position.

Installation

1. **Copy** the content inside the OMSI 2 folder into the OMSI2 main directory.
(normally: "C:\Program Files (x86)\Steam\steamapps\common\OMSI 2")
2. **Copy** the "**O530_main.osc**" and **rename** it to "**O530_main_FW.osc**". (normally: "C:\Program Files (x86)\Steam\steamapps\common\OMSI 2\Vehicles\MB_O530_Facelift\Script")

3. **Open** the file and **add** this under **{init}**

```
(M.L.blaulicht_init)
```

and this under **{frame}**

```
(M.L.blaulicht_frame)
```

```

  (M.L.cockpit_frame)
  (M.L.lights_frame)
  (M.L.wiper_frame)
  (M.L.Auspuff_Frame)
  (M.L.bremse_frame)
  (M.L.klappern_frame)
  (M.L.FF_frame)

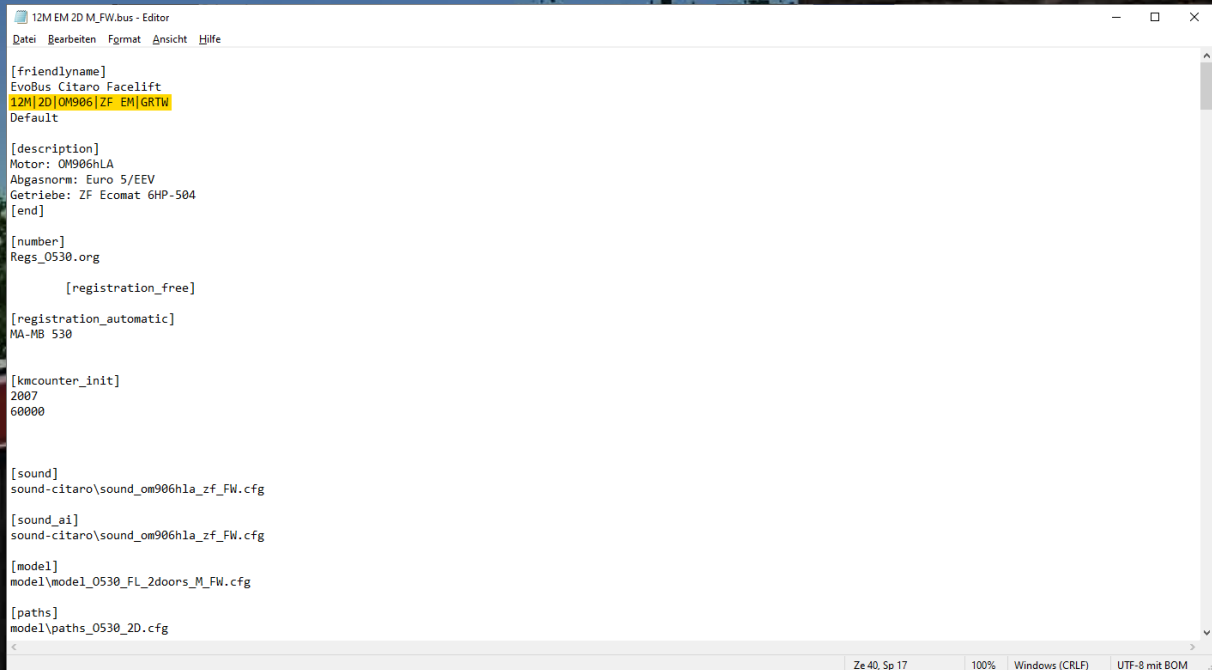

```

4. Navigate to the Sound-Citaro folder. **Copy** and **rename** the **"sound_om906hla_zf.cfg"**. **Add** the entries inside the **"sound_om906hla_zf_FW.cfg"** file which is located in this archive's **"Einträge"** folder **to the beginning** of the copied file. You have to do the same with the file **"sound_euro3_ZF.cfg"**. **Make sure** to **rename** it to **"sound_euro3_ZF_FW.cfg"**.
5. Go to the main directory of the bus and **copy** the file **"12M EM 2D M.bus"** and **rename** it to **"12M EM 2D M_FW.bus"**.

6. Open the "12M EM 2D M_FW.bus" and proceed as following:

- a. **Change** the name below [friendlyname] from "12M|2D|OM906|ZF EM" to "12M|2D|OM906|ZF EM|GRTW".

```

```

7. Open the Model folder and **copy** the file "**model_O530_FL_2doors_M.cfg**" and **rename** it to "**model_O530_FL_2doors_M_FW.cfg**".

8. Open the "**model_O530_FL_2doors_M_FW.cfg**" and **replace**

```
[CTC]
Colorscheme
Texture\Repaints\0530_2d
0
```

with

```
[CTC]
Colorscheme
Texture\Repaints\0530_2d_FW
0
```

9. **At the end of the file add** the entries which can be found inside the "**Einträge_model_cfg_citaro_facelift.txt**" in the "**Einträge**" folder of this archive.

Now you are done and it should work. Have fun!

Controls

You can control the lights and horns either with the **controller on the dashboard** or with **keyboard mappings**.

- (1) toggles "Blaulicht"
- (2) toggles "Stadt-" and "Landhorn"
- (3) toggles compressed air horn
